THE CIVIC ELECTIONS.

**ALD. WALLBRIDGE ELECTED
MAYOR BY A LARGE
MAJORITY.**

**THE PEOPLE'S CHOICE FOR ALDER-
MEN.**

A Large Vote Polling—Five of the Old
Council Hired Defeated.

The civic elections yesterday in the city
were conducted in a quiet manner. The
Saturday night election, Mr. Ald. Pettit retired from
the contest, leaving Ald. Fowell and Wall-
bridge to fight the battle. In all the
wards there was a contest for Aldermen
honors, which made it still more interesting.

The day being a holiday, a heavy vote was
polled. At the opening of the polls at 9
o'clock, the friends of both candidates were
found to be ready for the fray and votes
were soon being polled. At the hour of
noon a halt was made to the various
polling booths, and it was learned that a
big vote had already been polled. During
the afternoon a large number were recorded,
and when the vote was counted it was found
that nearly 1000 had been cast. From the
first return it was evident that Ald. Wall-
bridge would be elected, but a majority of
over 300 was not anticipated by his most
sanguine friends. Such, however, proved
to be the result, he receiving a majority in
every ward with the exception of Blockley,
which gave Ald. Fowell a majority of 55.
It was not known to some of the early part
of the day that Mr. Ald. Pettit had retired,
and in consequence a few votes were given
in his favor. It was not until 6:30 that the
last place was heard from, namely, No. 7
division of Murray Ward, which gave a
majority of 97 to Ald. Wallbridge, making
his total majority 327. The enthusiasm of
his friends at this time was beyond bound.
The result of the voting in the various
wards for Mayor and also for Aldermen,
will be learned from the following figures:

The Free Reading Room and Par-
lor.

Its Fourth Anniversary—An "At Home."
The fourth anniversary of the opening of
the free reading room and parlor of Bridge
St. Methodist church was held on Mon-
day 2nd inst. The entire suite of Sunday
School rooms had been tastefully decorated
for the occasion, and from three o'clock in
the afternoon visitors were received, wel-
comed and entertained with music, a fine
and cold supper, the entire of the church
providing a cozy place in which to spend a
pleasant and profitable hour for everybody
is worthy of notice, and we understand it
being copied by churches elsewhere. The
results have been such as to silence all
opposition to the novel idea of a reading
room in connection with a church. The
cost of maintaining the room—about \$500
per annum—is now provided for by annual
grants from the Trustee and Quarterly
social hours of the church, this being
in the financial support of the room has
taken place during the past year, and places
their maintenance on a permanent basis.
The reading room is now more used than
ever, and at almost any hour of the day—
but especially in the afternoon and even-
ing—people of all ages, and from every
class of society are to be found in it, while
the students of Albert College, the Ontario
Business College and Belleville Business
College prize the room, and find it an
avenue to form friendships and associations
which will help to them socially as well as
intellectually.

AMUSEMENTS

A SMALL NOVEL.

There was a small gathering at the
Opera House last night at the benefit which
was tendered to Mr. Harry E. Walton.
After some selections had been given by
Messrs. Joe Doyle and F. Lewis, a comedy
entitled "A Glass of Fortune" was pro-
duced, which was very successful.

A Pleasant Herb Drink.

The best cure we know of for Constipation
and Headache is the pleasant herb
drink known as "Fruit of Fortune." It is
said to be the Oregon grape root, combined
with simple herbs, and is made for use by
putting a little of the powder in water, sugar
and herbs. It is remarkably efficacious in
all blood disorders, and is now the standard
remedy with ladies for constipation and
headache. Druggists sell the packages
at 50c and \$1.

Exposed to the Cold.

John Stewart, a vagrant, was arrested
last night on the charge of drinking. He
was taken to the police station, where he
was lying in a back yard, but pressed,
expressed to the sergeant, who was
divinely conveyed to the station and placed
in a cell. Although suffering from the
cold, he did not appear to have been
much affected. He was allowed to go this
morning.

Sunday School Entertainment.

A Sunday school entertainment was held
at the Baptist church last night. The
program was largely attended. A Christmas
song service was rendered. The Rigger family
were present and rendered several selections.
Prizes were distributed to the children. Mr. W. H.
Ried, superintendent, occupied the chair.
A collection was taken up in aid of foreign
missions.

Week of Prayer.

Two meetings were held last night,
namely, at Holloway street and Reformed
Episcopal churches, both were well attend-
ed. Addresses were delivered in the
former church by Rev. J. L. George and N. M.
McArthur, and in the latter church by
Rev. Mr. Campbell and H. Walker. This
evening service will be held at John
street church.

Excellent Qualities.

Somebody has approved the California
liquid fruit remedy Syrup of Figs. It is
pleasing to the eye, and to the taste and by
gently acting on the kidneys, liver and
bowels, it cleanses the system effectually,
thereby promoting the health and comfort
of all who use it.

The Death of a Child.

Mr. Wilson Committee received a tele-
gram this morning from Mr. C. F. Nichol-
son, proprietor of the Ontario "Frederator,"
announcing the death of his child, boy
two years of age. The many friends of the
child will sympathize with the father in
this with them in their affliction.

School Election.

An election for School Trustees took place
to-day in Coleman ward, the contest being
between the present members, Mr. H.
Harris and Mr. Geo. Bennett. At 2:30 the
poll was: Harris, 85; Bennett, 14.

The Courts.

Spring sessions will open here March 29th,
before Judge McMahon. Chancery sittings
will open April 1st, before Judge Meredith.

Correspondence.

Whilst correspondents will be accorded space
for the expression of their views on topics of
public interest, it must be in all cases understood
that the views are expressed simply those of
the correspondents themselves.

To the Editor of the Intelligencer.

SIR,—I was very much surprised to read
a letter in last night's issue of the Intelligencer
from "one who cast his vote," casting re-
proach on myself and my supporters re-
specting a report that Mr. Fowler or some of
his supporters sent a keg of beer to a
man to secure his support for the Repub-
lican. In which the writer claims that it was
sent by one of my supporters in my interest.
I must admit that I did not see the article
or any of my supporters knew any thing of
the matter until the report became current
on the street. Mr. Editor, I would like to
have more light on this matter, and would
ask, and now call upon the gentleman who
sent the keg of beer to explain this matter
more fully. I think it is most disagreeable
thing for the person who wrote the article
to cast such dastardly reflections on the
members of any church or on my friends
and supporters over an anonymous signa-
ture, and which he cannot support.

Yours &c.

FRANCIS WALKERBIDGE.

To the Editor of the Intelligencer.

SIR,—After the last general election the
friends of Peter Vankeek buried him in a
grave in the north of Belleville, and erected a stone
monument to his memory. Since that time
there has been a resurrection, and he ap-
peared to his friends in Madoc and secured
the services of two young professional men
of that village, and asked them to come to
the Eldorado town hall on the 28th ult.,
and tell the people what wonderful things
he was going to do. In doing so he had
they had to pass the hotel (I do not know
if this had any effect on them or not), and
they mistook the hall for a church and did
not know where to go, so they concluded
they would look for the sepulchre, then
they retraced their steps and found the hall,
and also Mr. Northrup, M.P., who was there
to address the voters of that political
division. Then those young gentlemen told
a wonderful story about this very won-
derful man, who was going to pull down
the tariff wall between us and "Uncle Sam,"
so completely that one stone of it should
be sent to the other side of the water, and
Mr. Vankeek took a severe chill and is
dead, and I hear his friends are meditating
his canonization. However, of that I will
tell you in my next letter.

Yours &c.

F. J. FARMER.

To the Editor of the Intelligencer.

ROSELIE, Dec. 26, 1892.

DEAR SIR,—No doubt that you, as well
as your numerous readers, were very much
surprised at the letter written by Mr. J. J.
B. Flint in your weekly of Dec. 22. In the
first place, he says that a man wears his
trunk in his house. Some ladies seemed the
tampered with, and is backed up by his
household, he will discharge him; and he
tells them to be as plain as a pike's tail
to him, to not own up, and he will put
the line on the honest patron. He says
that he is a man of business, and is a dan-
gerous business. My impression is that it
is such a man as that who the laws of the
country. He says he is a man of business
it is the practice of the Inspector and Directors
to the dishonest patron, and he says this
is not legal. Why does he not advocate to
make it legal? Who is the loser by a dis-
honest patron tampering with his milk? Is
it the citizens of Belleville, or is it the hon-
est patrons of the factory? He advocates
the sale of the milk can. I entirely disapprove
of his case.

There are two ways of getting out of the
difficulty. The first is to make the Inspector
or Directors the properly constituted
authorities; and the second and best, is to
annul the law that every factory must be
compelled to keep a Babcock tester, and
pay each patron according to the strength
of his milk—thereby taking away with the
Magistrate, and whole gang of leeches that
follow in his train.

Backache.

Backache is caused by sick kidneys.
Dodd's Kidney Pills will remove it. By
the action of the kidneys, the blood is puri-
fied, and the system is kept in perfect
health. Blood is the life of the body, and
a diseased blood is a diseased body; health
existence depends upon their natural con-
dition; when the system is out of order, con-
tinual disorder results in kidney con-
sumption, which is Bright's disease.

The Best Blood Purifier.

Thomas White, P.M., River George,
Ont., writes: "I have used Dr. Williams' Pink
Pills, I find that they are undoubtedly
the best blood purifier and restorative of
weakness and debility, and that consti-
tution can be found." Beware of substitutes
and imitations by mail. Post paid a box, or

church was taken by Mr. Coleman. Well

filled out the programme, which was
much enjoyed. The proceeds amounted to

STIRLING, Jan. 4, 1893.

Mr. Oliver Hewat, one of our most promi-

night at 7 o'clock. Mr. Hewat had been
confined to his house but a few days, and
although for a short time he was very ill,
yesterday his attendant physician prom-
ised that he was improving, but last evening
about seven, a change for the worse was
noted, and he expired very suddenly.

Mr. Hewat was prominently connected
with the business of the O. P. R.
telephone here. He was universally
respected by all, and his sorrowing wife and
five children have the sympathy of the
entire community. Funeral to-morrow at 11.

"TORY" BARLEY.

The course of the Grit party with reference to the efforts of our Government to encourage the cultivation of two-rowed barley for the English market, in substitution for six-rowed for export to the States, which market had been closed by the McKinley bill, was characteristically unpopu- lar and thoroughly disagreeable. Before the grain was sown, they predicted that it would become hard, flinty and too light for English requirements, and expressed their utter detestation of the attempt to do so at the blow aimed at us by our neighbors, by christening the two-rowed barley "Tory barley"—a place of cleverness which they may yet, through the logic of events, be led to repent.

The undoubtedly inferior quality of our crops in 1892, owing to unfavorable weather combined with other causes, depressed the English market, and the Grit press have made the most of the fact that the prices in Canada for two-rowed barley have not been satisfactory. They were about to the Government as simple or dishonest in the premises, and bitterly have they sneered at the "Tory" barley.

It is, proverbially, a long lane that has no turning, and the time appears to have been reached in favor of the two-rowed barley.

Singular as it may appear, the discom- fiture of the Grit proceeds from a Grit source, namely, the London (England) cor- respondent of the Globe, who forwards an interview with the prominent firm in that city, as to which the Grit says:

From Rio de Janeiro in the southern, and Paris in the northern part of Brazil, we get from Rotterdam, from the north, a plant called the mandarin, or the cassava. The roots are long and round, like the sweet potato, generally of a foot or more in length. Every part of the plant will produce the root like the signature of a grape vine. The tubers are dug up from the ground, peeled, scraped or grated, then put in long rows of boxes, and left to dry for two or more days at the bottom of the box they are covered with a layer of water, which the flexible sides are contracted, and out pours the cassava juice in a pale liquid. The juice is then mixed with water, and the volatile part (the poison) has evaporated what is left, looking like some crumbs of bread, is the innocent residue of which you make our pudding.

The secretion of some fluid to certain roots of fruit is curious and not always to be accounted for. The late Henry Ward Beecher had a great aversion for food, and the favor so much that he avoided passing it. The right of an oil of the cassava has thrown persons into convulsions. There are many who dislike milk. The Equi- mal is a great article of food, and the city state people depend on it for their food. One of our friends has been unable to indulge his appetite therefore for years. The peculiarities of diet can be studied with much amusement and profit in any large and popular restaurant. One is almost amazed at the mistakes some people commit and with relief. There is no reason for the time being, but he is doing every day. Where this is neglected the state of the mind is not to be de- scribed. A few drops of oil of clove put in the open be careful not to use the mouth, forming a thin film over the tongue, and it will be seen to two drops will stir it.

Miss Christine Nilsson has given 21,000 francs to the French Government for the purpose of instituting the cure of diseases of the famous singer in the result of an early very poor, had often to leave the stage, and had a great deal of trouble. When she was in a small hospital at Charente, she was threatened by a doctor who was able to cure her, hence the loss of her life.

A CRASH ON THE RAILS

TWO ENGINES COME TOGETHER AND ARE WRECKED

Terrible Accident Near Pittsburg—Two Trains of Cars Reduced to Splinters—Eight Persons Reported Killed—Others Are Being Hunted Alive.

PITTSBURG, Jan. 5.—A terrible accident occurred on the Baltimore & Ohio Railway at Busby, Va., 30 miles east of the city, by which two trains were wrecked and eight persons reported killed. A work train was standing on the track when a passenger train, traveling at a high rate of speed, crashed into it. Both engines came together with a crash and the cars were reduced to splinters. Some of the workmen were on the cars, while others were standing on the ground. The shock was so great that all the men were thrown from the cars and they, with those on the ground, were buried under the wreck. Eight men were reported killed on the spot, and others are still being sought for.

Both trains took fire from the wrecked engines and the flames spread so rapidly that it was impossible to reach the cars on the ruins. It is impossible to obtain the names of the victims, as the section has been removed to the scene of the accident.

—MICHIGAN'S CRIME.

That State Made the List for Honor—Criminal Deaths.

DETROIT, Jan. 5.—The News editorially says: The people of Michigan seem to be doomed to read horrifying news every day. The frequency of the crime in this state is a disgrace to the nation. In the present state of Michigan, a sudden passage is to be expected in all communities. Michigan has her share of crime, but she has more than her share of cold-blooded murder. The mystery of this is all the deeper because the Michigan community as a whole is one of the most enlightened and virtuous in the world. It is only in the only political aggregate which has received a prize for the superiority of its educational system. In the midst of which we experience in the endeavor to get an intelligent theory of crime, it is natural to try to get a pause for reflection, but ours is by no means the only state which does so.

In all cities it is evident that something besides the crime must be done. The wholesale murdering must be stopped. Whether the means end will satisfy them, they really accomplish the object. The Michigan courts are struggling to stand at the very head of a column of 44 states for the most brutal and senseless killing. While we do not need murderers to death, the most brutal of the state will shortly feel that they are under that shadow.

Daily Intelligence

BEVELLE, SATURDAY JAN. 7
A CANDID CONFESION.

When the McKinley bill was before the United States Congress, its supporters were emphatic in declaring that the apparent discrimination against Canadian products was not intended as a means of forcing Canada into the Union, but as a means of forcing the Conservatives. No, said they, our action is based on regard for the interests of our own people, and without any reference to the circumstances of any other country. In this declaration, Mr. McKim, Mr. Farrer, Mr. Charlton, and other disloyals who had conferred with leading Republicans at Washington, previous to the initiation of the legislation injurious to the Dominion, concurred.

Now mark the change wrought by the defeat of the McKinley tariff. The New York Press, on behalf of the Republic party, of which it is a leading organ, throws off all disguise in referring to the tariff and makes the following bold disclosure to the issue of the 4th inst.

The annexation of Canada will be indefinitely postponed if the United States adopts the tariff policy. This year, the tariff is the only desire for free access to the very available market for the Canadian goods. That since the Democratic party is pledged to stand without adding a single advantage for the United States to the tariff, the annexation of Canada, which had seemed a formidable prospect previous to 1892, is now a mere dream. Our markets were granted to Canadian products under the reciprocity treaty of that year. Then the South was won at Washington, and it will again be after March 1. Sooner than men said that Canada was likely to enter the union at that distant day. They were unwilling to see the anti-slavery North strengthened by the addition of more free soil States, and they carried to consummation the free trade treaty which stamped out the annexation movement.

The South to day seems bent on repeating the operation. To accomplish this does not require the full measure of free trade, which the Democracy is pledged. The adoption of the most conservative tariff policy advocated by any element of the Democratic party would give Canada all that she demands and effectively destroy her desire for political union with this country. It is the desire on what the Democratic party is pledged to make Canadian annexation. These are precisely the duties which Democracy, with scarcely an exception, demand shall be repealed.

The duty on barley, oats, poultry, wool, hides, corn, fish, animal, lumber, iron—in short every single Canadian product—has an opportunity to report to the British Government. It is in 1892, that as a consequence of "an unrestricted commerce with our nearest neighbors, all agitation for organic change has ceased, and all dissatisfaction with the existing political relations of the Dominion has disappeared." Every Democratic vote was a vote to keep Canada out of the Union.

The plot in which the Republican leaders and the disloyal press have conspired, dated to 1890 is no clearly revealed in the above extract, that no person who is in possession of his senses can fail to perceive it. It is just necessary to remark that our neighbors have simply been deceived by their energies in attempting to force Canada into the union. By no means, have conquest by force of arms, can the United States acquire the greater half the continent. As to Cartwright, Laurier, Fairbairn, Johnston & Co., the people of Canada know how to deal with them.

CHINESE SMUGGLING
Three months ago, the Chinese Consul at Ottawa, Jan. 7.—Our American friends have been very fond of blaming Canadians for smuggling Chinese into the United States, but the fact of the matter is that smuggling there is a mostly done by Americans.

Hon. C. Walker, Comptroller of Customs, had under consideration today two cases which bear out this contention. They were those of the schooner Belle and the ship Hatter, both American.

The Hatter was a small schooner, B.C., and the latter at San Juan. Both were charged with infraction of the customs laws in not reporting such was done the full maximum of the law, \$500, and in addition the Chinese Consul at Ottawa for having on board a Chinaman who was smuggling opium.

These cases were confirmed by Comptroller Walker yesterday.

The Hatter is an old offender, and both vessels have the reputation of being engaged in smuggling opium into the United States.

For the month of the month ended 31st December in 1892, \$3,302,025, and expenditure \$3,312,407. This shows an increase in revenue of \$80,540, and a decrease in expenditure of \$79,902, as compared with the period last year.

The total amount of the semi-annual payment of the provincial subsidies and a large amount of interest on the public debt falls due in January.

The amount of the Dominion has decreased \$3,219,920 since the close of the last fiscal year.

All the banks here report that January payments were more promptly met than in the month of December, and that the banks are better than it has been for years.

The Grand Comptroller of Customs, Mr. Walker, is expected to arrive in the city on Monday next.

Among the latest arrivals in the city is Mr. William E. McLean, who is expected to arrive in the city on Monday next.

AFTER - THE - BATTLE
Begins Clearing Up the Field!

Now that the battle with Xmas goods is over we are about cleared up and ready with our Winter Stock. We have a very handsome lot of Ball and Party Invitations and Program Cards this season. Please remember that all the pretty Programs that you have seen at balls and parties this year came from our place.

Another thing we make a specialty of is Fine Note Paper and Envelopes. We have good vellum paper from four cents a quire up.

Large number: have been admiring daily the display we are making of Prang's latest high-class pictures. We don't like to mention anything about Playing Cards in our daily papers, but since pedo parties are all the rage, we will just say there are a few packs left running from eight cents a pack up.

WEDNESDAY, JAN. 11

REMEMBER THE POOR.

This terribly severe cold weather is disliked by the rich but dreaded by the poor, who, in their stately built houses, and in want of food and warm clothing, often suffer for many days during these seasons of the year. Yesterday a load of wood was taken to a house in this city where there was utter destitution, and the entire want of fuel, while a mother lay sick. Near York last week, a father in the poorer walks of life left home for his daily toll without providing necessary fuel during his absence. As a result a young babe was frozen to death, while the mother risked her life to seek assistance from her neighbors.

Remember the poor.

GROSS INSOLVENCY.

The Liberal party profess to be truly liberal—liberal of the opinions of others. Really, they are the very opposite of what they profess to be. Witness the following from that shining light of Gethsemane, the *Express*:

The farmers of North Hastings seem to be fond of low prices for their produce, or else they have an overbearing fondness for XL. Perhaps the hand is better appreciated than hundreds of dollars in the future.

Such is the doctrine of the Grift press, namely that every dealer in the market, honest, drunk, and corrupt. A nice statement to make, truly; but it must be considered whether it comes.

"SUNBEAMS FROM CUMBERLAND."

Dr. G.W. Faulkner, of Stirling, who was in 1886, as a Grift candidate for the Legislature in North Hastings, buried under an adverse majority of 763 by Mr. A. Wood, has re-lived the glimmers of the moon in his winding sheet. In a communication addressed to the *Globe*, the late writer, who seeks to extract sunbeams from cumbers in connection with the recent election to the Commons in North Hastings; but so mixed and muddled are his ideas that we can gather nothing from his lengthy effusion beyond an assertion that Mr. Vankeels made some gains in the weather seasons the riding, and that those gains were caused by hostility to the trade policy of Government.

Supposing that this assertion were true, what does it prove? The Dr. leaves it to be inferred that the wealthiest people are of course the wisest—and he is a Liberal, who is opposed to property qualifications for voters. Beautifully consistent, but quite opposite to the Grift standard of equality! But it is not true that the richest men are always the most intelligent, which fact Dr. Faulkner strategically exploits in his own person. Those who in the late election cast their votes in opposition to Dr. Faulkner's friend Vankeels and their policy of annexation, under the guise of "unrestricted reciprocity," are doubtless—in the opinion of the Doctor—"poor, ignorant men," but we can hardly be wrong in assuming that the record of the poorest of them will compare most unfavorably with that of Dr. Faulkner.

The Dr. has stated his thesis as to the cause of gains made by his party. He has stated his thesis as to the cause of gains made by his party. He has stated his thesis as to the cause of gains made by his party.

(1) Local feeling operated against Mr. Vankeels in Madeo village and township, and in Stirling, just as it worked in his favor in Marmora.

(2) There were existing contacts for the Revere, in each case between Conservatives, in Madeo, Hamilton and Stirling townships, in consequence of which, confusion was created in the Conservative ranks, causing imperfect organization—in a few divisions, possibly, total lack of organization.

(3) A voters' list in Madeo village unusually favorable to the Grifts.

Such are the facts. We do not anticipate that Mr. Vankeels will be, as Dr. Faulkner believes, easily persuaded to confess that the riding again, as he has already done, defeated four times—twice for the Commons and twice for the Legislature. Should he, he is probably well, declines to sacrifice himself for a fifth time, we trust that Dr. Faulkner will step into the breach as he has done in the columns of the *Globe*.

They Must Not Die.

It is simply an outrage to let young people die who are attacked with pulmonary troubles and indolent consumption, when Miller's Emulsion of Cod Liver Oil will save them. It should be absorbed from the house tops that supposed insurmountable consumption can be cured by the use of this extraordinary preparation. The following proof commences in the system the emulsion is taken. It is curious to watch the effects upon a consumptive who begins to fill out and make new blood as soon as Miller's Emulsion is administered. In an incredibly short time, a consumptive looking paler than natural and healthy, in big clothes, 50s and 81 at all Drug Stores.

W. H. Hogoboom, Ogden Station, Ont.

It is with pleasure that I add my testimony to the value of Miller's Emulsion. My wife was run down last week, and has been so for six years. I decided to get her back to health, and she has given great satisfaction. My wife is able to go to church now for the first time in two years. Had I not used Miller's Emulsion, she would have been a box or six boxes for \$2.50. Dr. Williams' Medicine Co., Brooklyn, Ont.

ANCIENT WONDERS IN THE EAST.

Buildings of Old Which Modern Machinery Would be Powerless to Erect.

Nineveh was fourteen miles long and was surrounded by a wall 100 feet high, so thick as to furnish ample room for three chariots to be driven abreast around the top. Babylon was fifty miles within the walls, which were seven feet thick and the same height as those of Nineveh. The city was built on twelve terraces, or gates, which were closed by enormous brass shutters every evening at sundown. The temple of Bel, at Babylon, was about an even hundred years in building, was 400 feet in height, and was built on a base of 400 feet and 800 on the sides, the base covering eleven acres. The walls were 200 feet thick, and the city was 100 miles long.

Udd said in the blood in the cause of nearly all diseases, it is the cause of the body and is liable to fasten diseases on anyone; the duty of the kidneys to extract wastes from the blood, and to perform this action, a pain in the back follows, and unless relief is obtained, permanent inability of the kidneys to perform their functions follows, which may terminate in liver complaint, dyspepsia, blood diseases, dropsy, diabetes or Bright's Disease. Dr. Williams' Pink Pills said the kidneys to natural work, and cure all complaints and results arising from same.

One Price.

The Oak Hall is a strictly one price house. There is no doubt but that great many houses make pretensions of offering one price in order to capture customers who believe in this great principle, but these same houses do two prices with any person who wish to trade there. The Oak Hall Clothing house has proved itself to be one price.

The Mechanics' Institute.

To the Editor of the Intelligencer.

Sir:—It is indeed disheartening to observe that the citizens of Belleville are becoming so utterly lazarous as to neglect an institution which is the very treasure house of any intellectual community. Admitted that our city is suffering a serious stagnation through a lack of manufacturing activity—admitted that its future as an enterprising centre is deteriorating through the baneful domination of a few oligarchs, who might better be serving the state in penal regalia. Should the citizens encourage the demoralization of these imbeciles by neglecting the very inspiration of our entire progressiveness? Any small community's intellectual treasures—its Mechanics' Institute. Outfitted with a library of choice books; they drink; they lounge; and we open our larders to them. Our children thrive intellectually, but we allow the fountain of wisdom; they hunger, but we let the larders rot under lock and key of selfish uncharitable ignorance. Of course there is no accounting for the idiosyncrasy of humanity. Did not a spirit of extreme charity prevent me from exposing the ludicrously ignorant souls of some of our very wealthiest Bellevillians, I could relate incidents showing their spirit under the influence of the very bright light of the idiosyncrasy of humanity. BELLEVILLE, MONDAY, JAN. 16

THERE WAS NO ABDUCTION.

What Laura Davis Says About the Case.

She Found Detective McKee a Man of His Word and a Kind Officer.

DEAR SIR:—It is really embarrassing to me to see so many misrepresentations in the public press about my sudden departure from Belleville, especially the insinuations published in the *Ontario*, of my crime. Furthermore, I am sorry such insinuations should be made against Detective McKee, of Windsor, who, I am proud to state, I found to be a man of his word and a gentleman in every sense. He would not have been kinder to a child of his own than he was to me on our journey from Belleville to Windsor, in fact, I consider that it was an act of kindness on his part to accompany me to where my mother was.

A short time ago I wrote to mother and told her I would like to go home, and asked her to send me money with which to make the journey. I knew that father was against my leaving Belleville, and so whatever arrangements that were made had to be made without his knowledge. If Detective McKee had told my father what his business was when he came there, why, of course, my chances to get away from Belleville would have been very small, indeed, because father would have been very much opposed to my leaving. He would have stopped me from coming here. Detective McKee and myself had nothing of the sort to father at the time.

The statement made in the *Ontario* of my leaving in the *Ontario* Jan. 15, is about correct. The story about mother living a life of shame in Detroit is a fabrication, and no father having any respect for his daughter would make use of such statements, under any circumstances. If he did, he would have never kept home anywhere since she left Belleville, but on the contrary has been making an honest living by his own hands as a housekeeper. In this capacity he has worked for none but the most respectable families in Detroit, and other parts of Michigan. She is now stopping at Sandwich, Ont., and is well respected here. I am stopping with her, and am perfectly content with my body I think to us, and I am well and treated kindly. It was at my request that we stayed at the Palmer Hotel, Belleville, because I was unable to go farther without a rest, and I was also well at the time. Mr. McKee simply did as I requested him to do in this respect. About my narrow escape from the gas chamber in my room, I wish to say that he was not to blame for it. It was purely accidental. On the contrary, he used all means in his power to provide for my comfort and safety. No parent could have done more for his child.

Reference was also made in the papers about it being so strange that I did not call and see my sister, Ida White in Toronto, and that Detective McKee intended to make me visit her. This, like many hundreds of the hatched up stories of the affair, is false. Mr. McKee said if I wished to see my sister I might do so. To this kind offer I said, "no," that I did not have time, and that I was not sure whether life's addictions ran on West Glen street, and, further, that I did not know the number of the street. If I had known her proper address, I certainly have called on her. To make a long story short I wanted to get to my mother; my father was opposed to it and I knew it. My mother asked Mr. McKee to call and get me as his first opportunity and see me safe to Windsor. Both mother and myself considered it a kindness. He did his part of the duty. He took mother and father got "left." Father now seeks revenge by circulating and furnishing stories to newspapers that are false, and to publish them about mother and others. I trust that the matter will cease being talked about as I am not desirous of any more newspaper notoriety.

I am, respectfully,
L. DAVIS.

HONORING A PATRIARCH.

The Members of Quilts Encampment Around the Patriarch.

A Presentation to Past Chief Patriarch F. M. Clarke, Grandmaster of the Order.

The members of Quilts Encampment No. 10, I.O.O.F., with their friends last night assembled at the residence of Mr. John Fleming and partook of a supper.

The object of the gathering was to do honor to Past Chief Patriarch F. M. Clarke by presenting him with an address and a testimonial in recognition of his services in connection with the Encampment.

Bro. D. Wright, P. N. G. of Memphis, Tenn., 127 D.O.F., presided at the table, and at his right sat Messrs. H. Corby, M.P.F., and R. H. Riggs, M.P.F. At his left sat Mr. R. H. Riggs, M.P.F. of the Dumb and Deaf Institute, and ex Mayor Rogers.

The vice chairs were occupied by Mr. Wainwright and Mr. J. H. Mills. Around the table were seated a number of prominent members of the order and citizens.

After justice had been done to the banquet the following toasts were proposed and ably responded to.

"The Queen—'God save the Queen'" by a company.

"The Governor General and Federal Parliament." This was ably responded to by Mr. H. Corby, M.P.F. He complimented the Governor General as a gentleman who was in every particular qualified to fill the important position which he held.

He also paid a high compliment to Sir John Thompson, saying that the mantle which he wore through his health—fallen from Sir J. O. Abbott, had fallen upon the shoulders of a gentleman well worthy of the position.

It was certain that Sir John Thompson would do what was right—to what he could for the best interests of the country—Independently of any other which might be raised against him. The speaker, in referring to the policy of the Government, said that they were prepared to make better relations with the United States, if the latter country would meet them in a fair way.

The speaker was loudly applauded.

Song—"The Union Jack of Old England" by Bro. S. Burrows.

"Lieutenant Governor of Ontario and the Provincial Administration." Mr. W. H. Biggar, M.P.F., was the first speaker. He said the Lieut. Governor was a young man, not yet in every way able to fill the important position which he held.

He referred to the Provincial Administration, and the work which it was doing. It was also a high compliment to Sir John Thompson and Mr. W. H. Merrett.

A toast was then given by Bro. A. G. G. and Mr. H. Corby.

Mr. R. H. Riggs, of the Dumb and Deaf Institute, was called upon, and spoke at some length, referring to the various institutions in the Province which were supported by the Provincial Government.

He required some \$50,000 to maintain the Dumb and Deaf Institute here for one year, the greater portion of which was spent here.

Song—"Love at Home," Bro. S. Burrows.

"Our Fair City." This toast was ably responded to by Mr. H. Corby and Mr. A. G. G. Both of whom spoke highly of the city and the many natural advantages which it possesses.

"Grand Encampment of Ontario."—Responded to by Bro. F. M. Clarke, Past Chief Patriarch of Quilts Encampment. At the conclusion of Bro. Clarke's address, Past Chief Patriarch J. E. Wainwright stepped forward and read the following address:

Past Chief Patriarch F. M. Clarke, of Quilts Encampment, No. 10, I.O.O.F., Dear Sir and Bro.—You have been so long and so favorably known to the Odd Fellows of this city, that it is not possible for me to speak of you without feeling that you are one of the necessities of our success.

Bro. Clarke, in his address, spoke of the fraternal meetings, which have been a great boon to the members of the order, and of the genial companionship and a prudent friend to every earnest brother of our order.

REMNANTS.

Perhaps you think it's only dry goods stores that have remnants to sell.

Once a year we get all odds and ends together and parts of dinner, tea and

bedroom ware and let them go at half price. If we have anything more than

what we want, we're going to clear out our Clearance at about half price to

make room for China.

Saturday was a fine day's business, for which we are thankful these 20

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVEILLE ONTARIO WEDNESDAY JAN. 18, 1893

Daily Intelligencer.

FRANCE'S BIG SCANDAL.

THE FLOWER OF THE REPUBLIC

ARE STAINED.

The President demands a Judgment for

Enslavement of Count de Lesseps and

Others for Fraud—All sorts of Dis-

graceful Transactions.

PARIS, Jan. 18.—Advocate General Beaupré

opened for the prosecution in the Panama

cases yesterday. He said that until the last

moment he had cherished a hope that the

defendants, whose reputations had hitherto

been unsullied, and none of whom had con-

tributed to the glory of France, would

furnish frank explanations of charges

against them and establish their innocence.

In this expectation he had been disappointed.

He found himself compelled to demand

from the court a judgment that the

defendants were guilty of fraud, and that

they were to be sentenced to imprisonment

for a term of years. He then read the

indictment against the defendants, which

charged them with having obtained from

the Government a loan of 160,000,000

francs, and with having used the money

for the purpose of enriching themselves

and their families. He then read the

WAR IN HAYTI.

Because the Haytians were Threatened

with the Invasion of the United States

New York, Jan. 18.—A dispatch to the

Head from Kingston, Jamaica, says:

News was received yesterday which indi-

cates that the long-threatened revolution

against the government of President Hipolyte

of Hayti has broken out.

A battle was fought yesterday morning

in the town of the village of La Crosse, a

settlement back of Port-au-Prince. As

soon as word of the uprising was received

at the Government House, President Hipolyte

issued orders for troops to be

despatched to the place. In a short time

a little army of 300 soldiers and 200 com-

mandos were on the way.

The reports declared that the streets

were filled with armed men. While fight-

ing was in progress at this point, news

was received at Port-au-Prince of another

uprising near Maitre. The rebels were

in terror as a result of this uprising.

All places of business were closed. The

private residences were barricaded and

the occupants sought shelter. Troops are

under orders to leave to suppress the

rebellion, and they will be stationed with

the limited facilities of the republic.

President Hipolyte at once issued a

manifesto announcing that these uprisings

are not serious and that these uprisings

are not serious and that these uprisings

Accused of Raising a Young Girl Through

It is reported that on Tuesday, Jan. 17th

Norman McWilliams, of the 12th constituency

The 70th Anniversary

Of Bridge Street Methodist Sunday

School.

Appropriate services by Rev. R. S. G.

Bland, Large Congregation Present.

The 70th anniversary of the founding

of Bridge Street Sunday school, is at

present being commemorated. Yesterday

special services were held in the church,

and sermons were preached by the Rev.

Salem G. Bland, B.A., of Cornwall, who some

10 years ago was a scholar in the school.

In the year 1822, by one church building

in the then village of Belleville, in

a little rough, square frame building

on Pineapple street, and had nothing on its

exterior to distinguish it from a barn, the

first school was established as its exterior,

and the seats were made of unpainted

boards, nailed to rough wooden blocks

without backs. Into this building in the

year of 1822 was invited the inhabitants

of the village to hear an address from Mr.

Dagobert who had come from England. Mr.

Dagobert told the audience that his relation

to Upper Canada was to organize Sunday

schools, that he had been commissioned by

the Sunday School Society of the Church

of England to do this, and urged the forma-

tion of a school in Belleville. Mr. Da-

gobert's efforts were successful, and the

late Dr. McArthur, Dr. George Cooper, J. S.

Bland and P. G. Baker, united in the

organization of a Union school. In 1829,

Mr. Bliss Flint (now Hon. Senator Flint)

came here and took much interest in the

school, being its Superintendent for

nearly 40 years. He and Mr. Flint de-

voted themselves to the work of the school,

and in the year 1830 the membership was

200. After Mr. S. S. Thomas' church was

built, a Sunday school was organized in

the school which belonged to the Church

of England, and was continued until

the year 1874, when it was merged into

the present Sunday school. The original

school was a Methodist one. From that

time until the present it has increased

and today it is one of the largest—if not

the largest in Canada. Since the late "driving"

of the school in 1874, the membership each

year has been—1875, 337; 1876, 404; 1877,

230; 1878, 187; 1879, 412; 1880, 519; 1881,

436; 1882, 517; 1883, 468; 1884, 423; 1885,

435; 1886, 520; 1887, 541; 1888, 576; 1889,

494; 1890, 528; 1891, 737; 1892, 735.

The present Superintendent, Mr. Wm. J.

Johnson, has been in office since September

1874, and is in every respect "the right man

in the right place."

The services yesterday were attended by

large congregations, and were of unusual

interest. The following is a synopsis of the

morning discourse, the text being taken

from Philippians, iv. 8: "Finally brethren,

whatever things are true, whatever things are

just, whatever things are pure, whatever

things are lovely, whatever things are of

good report, if there be any virtue and if

there be any praise, think on these things."

In his opening remarks he referred to the

pleasure it gave him to be present at the

70th anniversary of the school, which

some 19 years ago he was a scholar.

The words of the text repudiated all

that was not good, and he said that a

Christian man is not a perfect man; he

is seeking to be made perfect. These

things which were said to be perfect, these

things which are often overlooked and

forgotten to a certain degree. He wished

to particularly mention three of these

things, namely, first, obedience; children

should be obedient to their parents; obedi-

ence showed strength, while disobedience

showed weakness. There was no strength

like that obedience as was ordained by the

law of God. He said that the word of

command, went into the very mouth of

him. The glory of the Lord Jesus Christ

was his obedience to the law of God. He

learned obedience by the things He suf-

fered. There was a feeling of day of an

unwillingness to obey; the modern Amer-

ican was impatient of restraint. What

would make our country great is to have

order and discipline, that we are taught

order. Another grace was reverence. This

grace does not grow too luxuriant; people

must be taught to reverence. This grace

Taking a Text Consideration. In his presentation this morning our reporter found a committee of the Board of Education in "solemn convocation," discussing the subject of figures to lay before the committee of the County Council, the admission of non-resident pupils in the City High School. The two committees are to meet this afternoon.

The Conclusion. The public meeting in Bridge St. Church last night concluded the commemoration of the 70th anniversary of Bridge St. Sunday School. The congregation was a large one, and the services were of a most interesting character. The Rev. S. G. Blund, D.D., of Cornwall, was the guest of honor, and his address was a most timely and instructive one. The singing was by the choir, and the collection was \$100.00. The services were concluded with a prayer by the Rev. S. G. Blund, D.D.

STATISTICS FOR 1892. The membership of the school at the annual meeting in May, 1892, was: Officers and Teachers, 48; Pupils, 1,200; Intermediate Department, 248; Senior, 381. Total, 1,757. MCKENNA'S FILTRATION. The Queen's circus house was comfortably filled last evening by a representative audience to witness the production of "McKENNA'S FILTRATION." The play is a farce comedy, with the two clever comedians, Barry and Fay, in the leading roles. It abounds in light providing situations, always the most satisfactory in all the most laughable for being so. The most pleasing feature was the absence of all "horsey" play. Two letters delivered by the comedians, the same name caused all the trouble, and in the ensuing confusion the play had continued to work more than comedy than we have ever before seen in a play of its kind. The company is a good one, perhaps slightly weak in the comedy line, but fully up to the average in other respects. Barry and Fay are one of the most amusing comedy acts ever seen on our local stage. The dancing of the whole company was a meritorious feature of the performance. They will play a return date at no distant day.

SOCIAL & PERSONAL. Aid. Doyle has so far recovered from his severe illness as to be able to go out. Miss Lottie and Miss Watson of the city, are visiting friends at Tweed. Mr. B. HE SECURED \$6,000. A Former Belleville Lady Duped by a New Yorker. She Invested in a Fictional Mining Company Which was said to have Created a False Wealth. The Stock Market—She was Paying 200 per cent.

At Belleville, Warren county, and stock was booming. The mine had created a pulse in the stock market, and none of its stock was to be had for less than 50 per cent. of its face value; the whole output for eighteen months to come had been sold to the Thomas Iron Co., and stock would pay her at once \$250 per month, and \$300 after a short time; it would soon be paying 200 per cent. All these allegations, she says, are false except the fact that the company have a mine. In asking Justice Lawrence for an order of arrest for Davis, she adds the affidavit of Joseph J. Henderson, carpenter, and Aaron Ayres, miner, both of whom were in the mine and corroborate her. Davis is being held in default of \$7,000 bail. The New Jersey iron company is said to be a West Virginia corporation. Mrs. Frank is the widow of William G. Frank, formerly of Napanee, who was successively a reporter of the *Detroit Free Press* and city editor of the same paper. He was well known in Canadian newspaper circles. About five years ago Frank was arrested and secured a position on a Minneapolis newspaper. He died a year ago while visiting Florida in search of health.

The Late R. Freeman. (Waterson Times, Saturday, Jan. 23rd, 1893.) The following particulars of the death of R. Freeman, who died at Hamilton, Ont., on the 19th inst., are gleaned from a private letter written by A. Bruce, of the firm of Bruce, Burton & Bruce, barristers, to Mr. L. P. Phillips, of Waterson, N.Y. Mr. Freeman was with Mr. Bruce on business Wednesday morning, remaining at the office about half an hour. When he came in he said that he had been suffering very much from indigestion, but that he had got relief from some medicine. He remarked on leaving that he would be in, and appeared to be in usual spirits. About 7 o'clock that night he died at the Royal Hotel. During the afternoon he had retired to bed, complaining of indigestion. While he was speaking to Mr. Hood, a change came over his face, and Mr. Hood called in the housekeeper. Mr. Freeman was speaking of Mr. Hood, a change came over his face, and Mr. Hood called in the housekeeper.

Shred Settlers—Big Profits. A large number of our new settlers on the lands of the North Galveston Association are farmers from the northern latitudes who have previously eked out a bare existence on poor lands, where the additional adverse condition of rigorous climate, which was considered a fair profit to them, is nothing compared to the profits derived from the cultivation of the various fruits and vegetables which are grown so successfully in Galveston County. It is not at all unusual for farmers in this County to make from \$225 to \$1,000 a year per acre, in the raising of peaches, plums, strawberries, etc., with about half the labor and inconvenience that attended the raising of them in the North Galveston Association, through their local agent, Mr. John Port, Belleville, are offering splendid inducements at present, and by taking advantage of them, the investor or settler in Galveston county cannot fail to reap abundant rewards. Write to the General Office in Box 993, Minneapolis, Minn.

Introducing New Members. The Empire's Ottawa correspondent, in referring to the introduction of Senators and members of the House, says of Hon. Sen. M. Bowell and Mr. A. W. Carleton M.P. "That war veteran, the new leader of the Upper House, Hon. Mackenzie Bowell, was presented by Hon. Bowell and Senator Olmstead. As Mr. Bowell took his seat his new colleagues gave him a hearty round of applause. Finally came Mr. Carleton, the banker from Marmora, who succeeds Hon. Mackenzie Bowell for North Hastings. He was introduced by Mr. Corby and Mr. North. He then rose and made a short speech, in the three Hastings, shoulder to shoulder as the three have been in the interests of the Conservative party."

A. O. U. W. Concert. A very successful night supper and concert, given by the A. O. U. W. of Belleville, was held at Melva last night. About 300 people sat down to the bounteous supper. After ample justice had been done to the system and other good things, the large crowd adjourned to the town hall, where a very pleasant evening was spent. Mr. F. Hudson, Esq., M.P.E., was called upon to read the address and after a few well chosen remarks which were well appreciated, proceeded with the programme, which consisted of a grand ball, a vocal solo by Miss Kenna. Address was also delivered by Bros. Adams and Hoffman, of the Chalmers Church. Bro. Carr, of Made, and Rev. Bro. Steele, of Huntington. A recitation was also given by Mr. H. W. H. and was much enjoyed. After the programme was completed the whole address sang "God Save the Queen," and dispersed to their several homes, well pleased with the evening's entertainment. The proceeds of the evening amounted to \$120.

A Belleville Boy. The St. Paul Daily Globe of the 15th inst. says: "Harry Bogart has been appointed as United States ganger in place of F. L. Krugenholtz, resigned. Bogart will be assigned to duty by Collector of Internal Revenue Marcus Johnson at the South St. Paul district office."

MORE LIGHT NEEDED.

Complaints are pouring in thick and fast that the supply of gas is inadequate, we presume, as a consequence of the extreme cold weather. It is not understood whether the gas company has been notified of the fact, or whether the average citizen is not slow to express his convictions that the company should make any and every exertion needed to furnish a sufficient supply.

J. G. BLAINE.

The death of Hon. J. G. Blaine must be regretted by the people of the United States, irrespective of political feelings. He was one of the most forcible characters of the country, and his ability as a statesman of the Government, or in whatever capacity he sought recognition, was considered paramount. A lack of steady, persistent energy must be charged with his failure to reach the White House. No other man in the country was better equipped, mentally and socially, to discharge the functions of the executive office, and his political popularity was generally conceded. That disposition to trifles with great issues, in order to gratify a whim or maintain a position, cost him the fidelity of many influential leaders of public opinion. As a politician and statesman he was recorded a high position, and as a representative American became quite famous. That he entertained an anti-British feeling, which influenced his official acts more or less, and gave him prestige among a certain class, was apparent to all who observed his conduct and utterances when British interests were subject to his actions. His splendid facilities as a leader of men, and his peculiar magnetism of character elevated him to the final position of a "planned knight" of American political life. There were not many men living in the United States qualified to fill the place made vacant by his death.

THE EGYPTIAN QUESTION.

France is again very much agitated over the Egyptian occupation of Egypt, and would like to do something more effective than offering protests, if she could. Recent occurrences at Cairo have shown how intricate through French and Turkish interests do not disturb the settled policy of the British Government, and that Lord Rosebery is quite as much of a "Jingo" as was Lord Salisbury. The fact that the occupation of Egypt is undertaken by British troops with a determination to settle long-standing abuses, and establish more firmly her own interests in that quarter of the globe, France has chafed under this manifest superiority of British influence in the quarter where she has been so anxious to gain a foothold and control the public interests. Internal dissensions, and a knowledge of what British diplomacy means, have served to check the Gallic spirit for revenge, and this has been a bitter pill for a sensitive and bellicose race to swallow. The Khedive, too, is impatient under British restraint, and thinks he is old enough to do as he pleases in the government of the country. He sees every public office and official transaction controlled and influenced by the presence of British agents, backed by British soldiers, and begins to think that he is not much more than a puppet in the hands of British ministers. This dissatisfaction is fanned and intensified by the presence of French and Turkish agents, who would like to see the last red-coated soldier take his departure from the land of the pyramids. Threats and threats, however menacing, do not disturb the British policy, and when the situation assumes a threatening aspect it is met with an increased force of occupation. The time has not yet come for Britain to relinquish her control of Egyptian affairs. Her position is strengthened, too, by the general conviction that much good has resulted from her presence there, and through the wise and economical management of the finances and trade. The Egyptian knows what they owe to British occupation, and hence the assurance that the masses are in sympathy with the existing order of things, and can be relied on for support in case of emergency.

A Bure Henny for Neuritis.

Neuritis is one of the most common and distressing complaints incident to this climate. It is not confined to any particular season, for while the weather is in the winter season, yet many suffer its excruciating agony in the heat of summer. In late years the form of disease has become better known, and consequently the means of relief have become greatly increased in number, as well as efficiency. Among the most powerful of these remedies, the Bure Henny is a most valuable preparation, and we advise a trial of it, or any other of the above-named remedies.

A GRAB FOR OFFICE.

The Ontario Legislature will soon be making another grab for office and not making another grab for the same fair or foul, to retain the Mowat Government in power. We have it on good authority that the session soon to open will be the last, when an appeal will be made to the country. The Mowat Government have the liquor traffic so framed that its mighty power must be brought to bear in its favour, but as well, it is, we understand, the intention of the Government to present the election in the interest of the party now in power. The Mowat Government are sending out circulars of instruction throughout Ontario that its party workers may be prepared for a full array upon the country as soon as the gerrymander is complete. The following is a copy of one of the circulars issued by the Hon. Sir John Thompson:

Toronto, Jan. 16, 1893.
Hon. Sir John Thompson, M.P., M.A.,
The Assessor for this year (1893) will turn the basis of the Voters list to be used at the next Provincial Election. It is therefore of the utmost importance that the name of every voter be correctly entered on the Assessment roll and care must be taken to have the roll made up by the 1st of March.

All other franchises conferring a vote for the Local Legislature are merged in that of the Machud Suffrage Act.

The qualification for the Province for nine months and in the particular Municipality at the time for the holding of the Assessment (Feb. 15th) 21 years of age, and a British subject.

Many persons are quite indifferent as to their names appearing on the Voters' list until too late; these our friends must look after. Not a few have just been added to the list (and they are not yet on the list) and who may not be aware of their right to vote which was conferred upon them by the Machud Suffrage Act of 1888. The importance of having the names of all persons placed on the roll cannot be over-estimated. Full information concerning them can only be obtained through you and others in your immediate locality.

A personal application to the Assessor (followed up if necessary by a friendly letter) will cause him to place all these names on the roll. I will gladly aid you in the necessary black and white work and hope that you will use every endeavour to have all our friends in your locality duly recorded by the Assessor. Let me urge upon you to see that every voter in your polling district will apply personally to the Assessor to have his name on the roll.

Remember that many constituencies are carried by very narrow majorities and that the omission of only one name in each polling district might seriously affect the result of an election.

DOMINION GOVERNMENT.

FIRST DIVISION ON MR. LAURIER'S AMENDMENT.

The Government Majority is Fifty-one. For over the Head Motion of the Government.

Ottawa, Jan. 31.—The newly elected member for Kent, N.B., moved the adoption of the address in reply to the speech from the throne, and for the first time he took up the speech, paragraph by paragraph, in excellent style, dealing with the different subjects of the speech which showed that he had made a careful study of them.

Mr. Laurier is a pleasant and agreeable speaker, who makes his points well and who gives prominence to the subjects of the speech to the detriment of the House. In his opinion the speech was referred to the fact that on six occasions he had endeavored to represent his constituency, but only succeeded on the seventh time, and regretted that he had not yet seen the House earlier than he might have had the pleasure of meeting that great leader, Sir John Macdonald, to whose memory he paid a long tribute.

He also referred to the absence of Hon. Mr. Blake and expressed the hope that in his new capacity of usefulness in the House he would be able to do justice to the problem of Home Rule. He expressed the highest confidence in the Government.

Thompson, the present leader of the Conservative party, and that the last of his great ability and application as a word of commendation from him.

Mr. Laurier briefly mentioned the progress of the country, as shown by the trade returns and statement of revenue.

He then referred to the fact that the Government of the United States with their 65,000,000 of population, in the debate, he would use an excellent half-hour for the purpose of a national spirit in Canada.

Mr. Laurier, Hon. Mr. Chaplain's successor in the House, seconded the resolution in French, and when he had straggled at himself up and towarded his fellow members to the extent of six feet, he was greeted with considerable applause. He speaks well, has a good voice and is well interested for 15 minutes.

He paid a high tribute to his predecessor, Mr. Chaplain, and thoroughly and ably endorsed the policy of the Government as outlined in the speech.

Hon. Mr. Laurier, who was not looking thoroughly recovered from his recent indisposition, was greeted with considerable applause. He spoke well, had a good voice and was well interested for 15 minutes.
